Adjust coffee table

We are proud to introduce our unique coffee table Adjust, a bold modern design made with solid French oak heartwood. As its name suggests, Adjust is ingeniously designed so that you can customize it in different ways to create a coffee table tailored to any space. The basic design employs three wooden beam elements. Using a hidden mechanism, you can slide each beam individually to vary the table width from 125 cm (49 inches) up to 190 cm (75 inches). The length of the table can be increased to any desired extent simply by adding more beam elements. This flexibly proportioned design thus invites you to create a playful combination of elements or a clean modern look in keeping with your preferences and living space.

Aprox. size in cm.

Finish A

Finish B

Set of 3 beams	45 x 125/190 x 32cm	€ 1.185,00	€ 1.275,00
Set of 4 beams	60 x 125/190 x 32cm	€ 1.580,00	€ 1.700,00
Set of 5 beams	75 x 125/190 x 32cm	€ 1.975,00	€ 2.125,00
Set of 6 beams	90 x 125/190 x 32cm	€ 2.370,00	€ 2.550,00
Set of 7 beams	105 x 125/190 x 32cm	€ 2.765,00	€ 2.975,00
Set of 8 beams	120 x 125/190 x 32cm	€ 3.160,00	€ 3.400,00
Set of 9 beams	135 x 125/190 x 32cm	€ 3.555,00	€ 3.825,00
Set of 10 beams	150 x 125/190 x 32cm	€ 3.950,00	€ 4.250,00

Every extra wooden beam in finish A cost 395,- Euro a piece and in Finish B 425,-. The size of one wooden beam is aprox. 15 x 125cm

All prices are RRP origin Holland.

Finish A: natural oak oil, soaped oak, smoked oak oil.

Finish B: “Coal” black oak waxed.

Wooden beams:

Solid French oak (responsible harvest wood)

Natural versions are being treated with linseed oil or soap. The smoking is a natural process which is done with ammoniac. The smoking process brings out the natural dark brown color. The “Coal” black version is treated with a wax.

Frame (invisible):

Rolled steel finished with a transparent coating to make it more durable. Different colors or wood are possible upon request.

Air 65 and Fat Air 65

Even when it feels like every chair is already made, how can we create a chair that feels new? The 'Air 65' is based on one clear concept: no-nonsense design, comfortable and without any decoration. The Air 65 chair has a comfortable, wide seat. The only visible constructive element is the connection of the backrest. The solid designed legs, constructed out of subtle tubes and the rough seat & backrest, give this chair a modest but exciting character.

Air 65

Fat Air 65

Air 65 and Fat Air 65 chair design by Anton de Groof

All prices are RRP origin Holland.

Fabric group 1: Burra, Isler en Keara

Fabric group 2: Bealla, Brassi en Odon

Body:

The body is made up of various foam hardnesses. Furthermore, it is reinforced with an invisible wooden and metal construction.

Base:

Steel powder coated in the colors black (RAL9005) and white (RAL9010). Other RAL colors are possible upon request. All chairs come standard with glides and felt glides and are available upon request.

Armrests:

Solid oak standard in black stain and finished with a matte transparent varnish. Also available in other options on request.

Stitching:

Fabric and leather version standard with Moccasin stitching. Double seam stitching possible upon request.

Bridge table

Our bold yet refined Bridge table is inspired by the bridges of the Dutch landscape and their symbolism. Providing ready connection between otherwise inaccessible points, bridges enable people to come together and connect. In the social sphere of living spaces, that is exactly what the Bridge table is designed to accomplish, its solid form and splayed legs referencing the structures that inspired it. Herein lies its distinctive visual power that will energize any domestic interior. Like the structures that inspired it, the Bridge table is both strong and beautifully detailed. The legs are created using special laser cut-technology. Their exterior sides are milled to be seamlessly engaged by a bold steel frame. The robust table top is made from French solid oak. This unique design is available in a variety of standard sizes and color finishes. Moreover it can be customized to fit your personal taste and space needs.

For example choose a wider or a more narrow size table top or modify the position of the beautiful legs. Modifications like these will allow you to create the perfect table to bring people together and connect!

320 x 100 x 75cm	€ 3.495,00	€ 3.695,00	€ 4.495,00

All prices are RRP origin Holland.

Finish A: natural oak oil, soaped oak, smoked oak oil.

Finish B: aged, ash grey, coal black and white wash oak stained lacquered.

Skyt soap look and **smoked Skyt soap look** oak lacquered.

Finish C: natural American walnut oil.

Table top:

Solid French Oak (responsible harvest wood)

Natural versions are being treated with linseed oil or soap. The smoking is a natural process which is done with ammoniac. The smoking process brings out the natural dark brown color. Color differences may occur because of the variety of acid in the wood.

The "aged", "ash grey", "coal black" and "white wash" oak versions are first stained and finished with a mat transparent lacquer.

Skyt is a lacquer which is applied in multiple matt layers and gives the product a more natural and untreated look and feel.

Natural and Smoked oak (Finish A) are also available in a matt lacquered version upon request.

The price for this is equal to Finish B.

Brushed:

Brushing of the tabletop is possible upon request with a surcharge of 10%. Knots are filled with 2 compartments of resin. The brushing process ensures a stronger drawing of the grain of the wood. Delivery time will be 8-10 weeks.

Frame:

Laser cut rolled steel powder coated in the color dark grey (other colors are possible upon request with a surcharge of 10%)

The position of the frame can be changed upon request. Standard we will position the frame at the end.

Custom size:

Custom size is possible on request. Price will be the size above + 10%

For example: price for a custom size 260 x 90 x 75cm will be the price of the standard size 260 x 100cm + 10% surcharge.

Different colors or wood are possible upon request. Please contact our office for more information.

Cambria chair

Inspired by the beautiful orchid species from which it takes its name, the Cambria chair exhibits a crisp, lean exterior line and a soft, inviting interior. An elegant, curved shell, realized using advanced foam injection techniques, sits on a bold, powder-coated steel linear base, the resulting contrast in form and feel producing a memorable design. The sustainable technology used in the Cambria's production ensures its superior quality, light weight, and remarkable ergonomic comfort. The luxurious cushioned lining is detachable and, when time demands it, can be recovered or replaced. Moreover, the Cambria is available in many different colors and materials, allowing for a highly personalized appearance. This is, in short, a chair that is visually striking at the dining table, yet so comfortable that you can use it for a long day's work.

Cross table

Architectural and elegant, that's the new Cross table. For her very first design for Qliv Dutch designer Carolina Wilcke was inspired by Art Deco architecture, such as the Empire State Building in New York. As elegant and robust as that building is the characteristic cross base of the table, from which the design owes its name. Because of the central position of the foot, made of black steel, it is very easy to put chairs around it: the base is never in the way. Cross is available with a rectangular or oval table top, made of European oak. Caroline Wilcke: 'The Art Deco movement combined Modernist forms with rich materials, just like the Cross table.'

Crossings coffee table

This coffee table embodies an exciting balance between solid and void. It's design features a rectangular table top of solid French oak running in two halves lengthwise, the corners and sides slightly rounded. The dynamic steel base on which the table top sits, created using laser cut-technology and finished with a powder coating, consists of multiple intersections that provide a rhythmic, asymmetrical contrast with the insistent rectangular form of the tabletop. Solid, it seems to float above the floor, the flat bands of the base taking on the appearance of shadows cast on the floor.

Highly functional is the elegant, discrete magazine rack which can be attached underneath the table top. Other options include the color of the wood and the placement of the supporting elements of the base. Bold yet playful, the Crossings coffee table epitomizes the best in contemporary design.

Noble chair

Luxury and comfort come together in the Noble chair, designed by Sven Schimmer. The beautiful upholstery combined with the robustness of the design provide a rich look and feel. In addition, the chair offers optimum comfort thanks to the use of multiple layers of foam. The playful stitching and the black steel base reinforce the sturdy character of the design. Sven Schimmer: 'I wanted to design a chair that has everything: elegant, but also comfortable. On the Noble chair you can spend the entire evening at the table with family and friends at the table. The twist in the design is that the chair consists of two parts. They are literally two chairs that make the design complete.'

Fabric group 1: Burra, Isler en Keara
Fabric group 2: Bealla, Brassi en Odon

Body:

The seat and back are made of several layers of high density foam. The construction is a durable combination of wood and metal.

Flat sled base:

Laser cut rolled steel powder coated in the color dark grey. Other RAL colors are possible upon request with an additional cost. All chairs come standard with caps and felt glides and are suitable for hard and soft floors.

Round sled base:

The round metal frame is powder coated in the color black (RAL 9005). Other RAL colors are possible upon request with an additional cost. All chairs come standard with caps and felt glides and are suitable for hard and soft floors.

Side-to-Side table

This eye-catching table lends comfort and elegance to any space. Robust yet sophisticated, its design features a tabletop consisting of two halves lengthwise. Their exterior sides are milled to be seamlessly engaged by a bold steel frame created using special laser cut-technology. The combination of materials along with the refined finishes, results in a uniquely contemporary table.

Side-to-Side can be customized to fit your personal taste and space needs. It can be ordered with a tabletop of different dimensions, in different woods, and with a single rather than double plank configuration. Moreover, you can order the metal frame in the color of your choice and even modify its position. Stock item: standard sizes 220, 240 and 260 in oak. Quick shipment possible.

Side-to-Side table by QLIV

Manufactured in the Netherlands

Aprox. size in cm.		Finish A	Finish B	Finish C
180 x 90 x 75cm		€ 2.495,00	€ 2.595,00	€ 3.495,00
200 x 100 x 75cm		€ 2.695,00	€ 2.795,00	€ 3.795,00
220 x 100 x 75cm	QS	€ 2.795,00	€ 2.895,00	€ 3.995,00
240 x 100 x 75cm	QS	€ 2.895,00	€ 2.995,00	€ 4.295,00
260 x 100 x 75cm	QS	€ 2.995,00	€ 3.095,00	€ 4.495,00
280 x 100 x 75cm		€ 3.095,00	€ 3.195,00	€ 4.695,00
300 x 100 x 75cm		€ 3.395,00	€ 3.595,00	€ 5.095,00
320 x 100 x 75cm		€ 3.595,00	€ 3.795,00	€ 5.295,00

QUICK SHIPMENT: The standard sizes 220, 240 en 260cm are stock items and can be ready within 2 or 3 weeks if stated on the order. With the exception of Finish C.

All prices are RRP origin Holland.

Finish A: natural oak oil, soaped oak, smoked oak oil.

Finish B: aged, ash grey, coal black and white wash oak stained lacquered.
Skylt soap look and smoked Skylt soap look oak laquered.

Finish C: natural American walnut oil.

Table top:

Solid French Oak (responsible harvest wood)

Natural versions are being treated with linseed oil or soap. The smoking is a natural process which is done with ammoniac. The smoking process brings out the natural dark brown color. Color differences may occur because of the variety of acid in the wood. The "aged", "ash grey", "coal black" and "white wash" oak versions are first stained and finished with a mat transparent lacquer. Skylt is a lacquer which is applied in multiple matt layers and gives the product a more natural and untreated look and feel.

Natural and Smoked oak (Finish A) are also available in a matt lacquered version upon request.

The price for this is equal to Finish B.

Brushed:

Brushing of the tabletop is possible upon request with a surcharge of 10%. Knots are filled with 2 compartments of resin. The brushing process ensures a stronger drawing of the grain of the wood. Delivery time will be 8-10 weeks.

Frame:

Laser cut rolled steel powder coated in the color dark grey (other colors are possible upon request with a surcharge of 395,- Euro) The position of the frame can be changed upon request. Standard we will position the frame at the end.

Custom size:

Custom size is possible on request. Price will be the size above + 10%

For example: price for a custom size 260 x 90 x 75cm will be the price of the standard size 260 x 100cm + 10% surcharge.

Different colors or wood are possible upon request. Please contact our office for more information. The tabletop can be made with a single rather than the standard double plank configuration upon request without surcharge.

Side-to-Side console/desk

The top of this robust yet sophisticated console table is made of solid French oak. For the detailed steel frame, finished with a powder coating, we use a special laser cut-technology. The sides of the console top are milled so that it is seamlessly engaged by the metal frame. This console with its depth of 35 cm (14 inch) can also be used as a desk. The optional lower level shelf of frosted mirror affords additional surface space and adds an unexpectedly different material element to the design.

T2 table

We Dutch love beauty, but also functionality. The T2 table offers best of both worlds and is attractive and practical at the same time. The name not only refers to the shape of the space-saving frame, T2 – a beautifully symmetrical design from QLIV's own design studio – also symbolizes the flexibility of the table, which is suitable for any interior.

Different colors or wood are possible upon request. Please contact our office for more information.

To be Served round tables

This distinctively designed series of round tables lends a stylish and playful note to any interior. The combination of materials, a solid oak top with a single piece steel frame created with laser cut-technology, is eye catching. The design's practicality is evident in the two smaller models in which the wooden top can be used as a serving tray by simply lifting up the tabletop off the base.

The smallest size affords the extra convenience of allowing the tabletop to be slid over the sofa, allowing sitters easy access to food and drinks placed on it!

To be Served
